

## Dry Relaxed Hair Repair System Directions for Use

Product		Directions for Use
Step 1	<p><b>Papaya Oil Pre-wash Reconditioning Treatment</b></p> 	<p>Dampen hair slightly, apply cream throughout the hair and cover tightly with a shower cap or plastic bag. Cover plastic with a towel to retain body heat which allows the product to penetrate into your hair. Leave for between 20 minutes to several hours depending on hair dryness and damage.</p> <p>This intensive pre-wash treatment infuses hair strengthening proteins and amino acids deep into the hair cortex. This is a very important step to repairing damage hair sites and mending split ends.</p> <p>Rinse hair with warm water and towel dry. The hair should feel softer and smoother to the touch. Repeat this pre-wash step once a week and You will see great improvement in condition and appearance of your hair.</p> <p><b>Caution: Rinse well with water if product goes into eyes.</b></p>

**Step 2**

**Papaya Oil  
Hair Strengthening  
Shampoo**

Follow this step with Papaya Oil Hair Strengthening Shampoo

Wet hair thoroughly and apply shampoo to the hair by using palms of the hands and fingers. Add a little more water to obtain a rich, luxurious lather. Work the lather in for ten minutes to allow thorough penetration of the oils, proteins and amino acids. This adds body, moisture and nutrients needed for healthier scalp and shinier hair cuticles. Rinse and repeat the washing a second time.

Wash the hair every week for best results

**Caution: Rinse well with water if product goes into eyes.**

### Step 3

Cocoa Rich Cream  
Conditioner

## Papaya Oil Hair Strengthening Conditioner

Follow this step with the Papaya Oil Hair Strengthening Conditioner

After shampooing, spread the conditioner over the hair completely and massage in with the hands all the way down to the roots. Leave on for ten minutes to allow the proteins, oils and amino acids to penetrate deep into the cortex and moisturize the hair and scalp. Rinse well and towel dry the hair.

Wash and condition hair every week for best results.

**Caution: Rinse well with water if product goes into eyes.**

**Step 4**

**Papaya Oil  
Heat Protection  
Spray**

Follow this step with the Papaya Oil Heat Protection Spray

Spray liberally throughout the hair after washing and conditioning while the hair is still towel damp. Use the hands to thoroughly rub the mist throughout the hair. The hair is now ready to dry using rollers and a dome hair dryer or use a blow dryer on medium heat. Be careful not to hold the heat on the hair for long intense periods. Move briskly and fluff the hair as you blow dry. The hair will now have a soft light feel with body smoothness and volume.

**Caution: Rinse well with water if product goes into eyes.**

**Step 5**

**Papaya Oil  
Daily Moisturizing  
Cream**

Follow this step with the Papaya Oil Daily Moisturizing Conditioning cream.

Rub a little of the cream between the palms of your hands and lightly spread it over the surface of the hair. Use a set of rollers or styling curler to style the hair as desired. Comb and finish the styling as necessary.

**Caution: Rinse well with water if product goes into eyes.**
